We have received your letter regarding the July 2014 Quarterly Report from the Green Mountain PAC. We have clarified the purpose of distributions as you requested and filed an amended report.

The problems you identified regarding Primary contributions past an election date and excess contributions to candidates for the Primary Election are a result of confusion on where to report the election designation. As you will note, each contribution you identify is designated as a General Election contribution in the Purpose Field on the original report and designated as such to each candidate committee. We understand the error and have corrected it on the amended report so both the purpose and the per election field reflect the general election contributions to these candidates.

If you have further questions, please do not hesitate to contact me.
